

THE STATE OF 5G WORLDWIDE | 2022

Ookla®, the global leader in internet testing and network intelligence, is uniquely positioned to provide an overview of internet performance around the world.

📶 5G Download
Q3 2022

168.27
Mbps

1% faster
compared to Q3 2021 at
166.13 Mbps

📶 5G Upload
Q3 2022

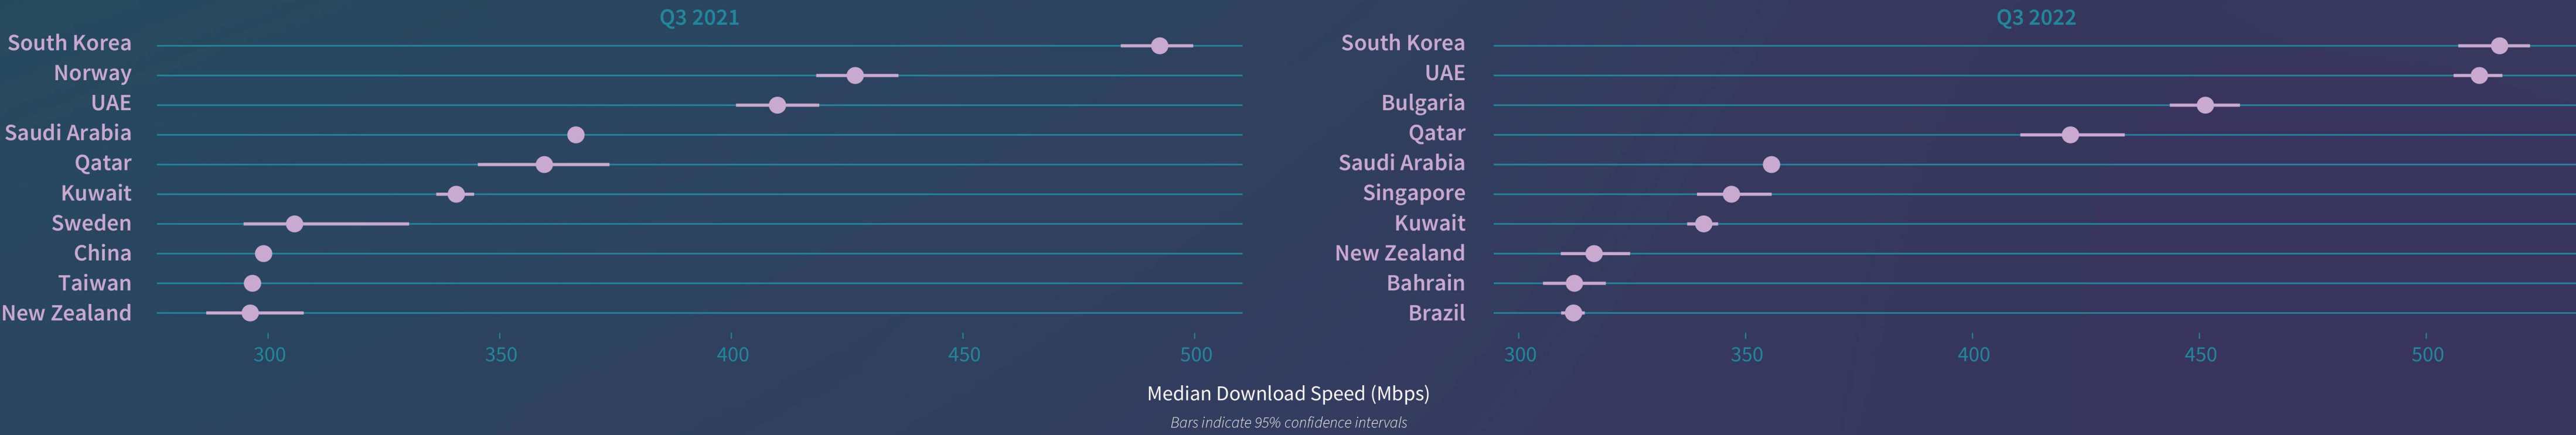

18.71
Mbps

12% slower
compared to Q3 2021 at
21.08 Mbps

Speedtest Intelligence® data from Q3 2022 showed a stabilization in overall 5G speeds, even as 5G access expanded to more countries and to more locations within countries that were previously served. This map also includes details on which countries have the fastest median download speeds over 5G.
